

**National Council of Corvette Clubs
Roadrunner Region Executive
2nd Quarter 2019 Report**

Roadrunner Governors and Officers,

As you all know, our 2nd Quarter Governors' Meeting was held via teleconference. Attendance was excellent, and it was unanimously decided that it was a definite advantage to all members and that we would like to continue the practice for at least one meeting a year in the coming years. I'd like to point out a few of the highlights of our meeting.

Our Competition Director Bob Johnson shared the news that at the 1st National Meeting it was decided that participants can ride with drivers in autocross events who are struggling to complete the course, at the discretion of the host club. He also informed the group that contact information for the 3 elected officers (RE, RCD, and RMD) has been posted on the website by Debbie Marple.

Our Membership Director Ron Scott informed the Governors that he will not be processing any new members during the period of the Sunday before each National Meeting until after he returns, by request of the NCCC Vice President of Membership. He also addressed some of the problems some Governors are having in entering new members, and urged everyone to contact him if they have any questions or are uncertain about the procedures, especially when transferring memberships from one club to another.

Ray Jenkins announced that CCA is willing to host the 2020 Kickoff Event. A motion was made to approve the event and was unanimously passed. The event will be held in February 2020.

Barb and Bob Johnson and Ron Scott all attended the National Meeting in St. Louis on May 3rd and 4th. There were several announcements and highlights to share:

- Former NCCC President Dave Heineman spoke about the upcoming NCM Caravan in August. NCCC is #1 in contributions to the Museum, and to show our physical support of this endeavor he has secured a vendor space in the parking lot with a tent. The purpose of the spot is to market and promote NCCC. With 3,000 cars and 10,000 people in attendance, this would be the perfect opportunity to let Corvette owners know what NCCC is all about and

encourage more people to join. In their tent they will be giving out pens, keychains and bottled water. The NCCC Finance Committee approved \$2,000 to help out in this endeavor. At the museum during the event 2 C-8's will be raffled off.

- Speaking of the museum, the raffle for a car is back. In compliance with gambling laws, any member can obtain a form from the NCM website, fill it out and mail it in with a check. Then they will be mailed a ticket.
- The NCCC financial situation looks good, being \$25,000 under budget at this point in the year. With projections for future expenses, we are on our way to still be under budget at the end of 2019.
- NCCC currently has 18,867 members, and the NCCC insurance coverage is the same as last year.
- Pat Kelly, the Director of Sponsorship and Charity, has retired after over 20 years in that position. Her replacement, Shannon Davis, was announced as the new Director.
- Walt Jenkins, Director of IT, announced that all members' email addresses have been updated, and the online registration for the 2019 Convention in Denver is going very well.

Just a few other reminders I'd like to pass along:

- Please remember to report all charitable contributions both to NCCC via the website, and also to me because our next issue of the Blue Bars will be concentrated on our various clubs' projects. The current issue was mailed out right before the National Meeting so we should all be getting them soon.
- Also, please remember to pass along to Ron Scott when a member of your club has passed away. Their names appear in Blue Bars and their names are read at National Meetings.
- Also, we have enjoyed the 3 sanctioned events we have attended so far this year – DCA, CCA and VVV all put on really great car shows! It's always a pleasure to travel to other clubs' events and get great ideas as well as meet a lot of really nice people. If your club is planning an event, remember to put in a sanction request to Bob 45 days in advance.
- Also, remember that our 3rd Quarter Governors' Meeting will be in Ruidoso, NM, on July 20. I'll be sending out the agenda in June.
- And of course, SAVE THE WAVE!
